

PCflex[™]
police custody | flexible layout

Police custody facilities

the rapid modular solution from Wernick Buildings
for hire or purchase

Modular police custody solutions

safe, secure, flexible and fast

PCflex™ is a modular building system that delivers cell and custody accommodation rapidly and efficiently. Solutions can be permanent or relocatable and are fully compliant with Home Office guidelines. From cell extensions to complete custody suites, PCflex™ is the answer to your future custody requirements and can be ready for duty, for hire or purchase, in a matter of days.

A fast and flexible system

The PCflex™ modular system is a patented all steel structure designed and manufactured by Wernick Buildings.

With its inherent flexibility of cell layout and the availability of all necessary supporting rooms and services PCflex™ meets all manner of secure accommodation needs. From temporary custody suites to cover station refurbishments, through to 10 cell custody wing extensions and complete 40-50 cell Bridewell custody suites, PCflex™ can provide all your requirements.

The PCflex™ modules are factory manufactured and fitted out under meticulous quality controlled conditions to ISO 9001. This dramatically reduces lead times when compared to traditional construction methods.

Wernick Buildings also provides a complete consultation and design service for every project thus minimising costs while providing a complete service.
