

Winterville

Requirement:

Attracting tens of thousands of visitors, Winterville is one of London's premier winter attractions.

Winterville offers an alternative event experience: street food, an enchanting forest, circus performers and even Mexican wrestling make this a unique and enthralling event.

After a successful first year, Winterville returned to Clapham Common for winter 2018. Event organisers Loud Sound are also behind a host of UK events, such as All Points East Festival and Barclaycard British Summer Time.

The event demanded a range of temporary accommodation: from customer box offices to performer changing rooms in addition to fixed, hard-wearing, male, female and accessible toilets for both staff and ticketholders.

The site itself can get very congested, requiring some experience, "but above all, patience". The client feels that it is important to establish links to a gamut of reliable suppliers who can get to know the site, ensuring a straightforward set up and take down.

Solution:

The client approached a Wernick® with their requirements. The quote was agreed and the Depot Manager for the Winchester depot, Paul Fuller became their first point of contact. Paul had worked with the client on previous events.

Wernick® delivered a number of high-quality options from its suite of products. These included en suite sleeper units, portable cabins with fitted blinds and box offices with roller shutters.

The capability of the lorry driver during installation was complimented by the client and once in place, the cabins provided secure and comfortable facilities for staff.

Client Feedback:

Mike Johnson, Site Manager at Loud Sound commented:

"Having a reliable contact with knowledge of the venue is essential. I need to trust that the job is going to get done! I know our contact at Wernick will ensure things go smoothly."

Sector:
Events
